DETAILED ACTION

Continued Examination Under 37 CFR 1.114

- 1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on December 19, 2003 has been entered.
- 2. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Claim Rejections - 35 USC § 103

3. Claims 10 and 12 to 15 are rejected under 35 U.S.C. 103(a) as being unpatentable over Mercer in view of Salter, Jr. and Dahlstrom.

Mercer and Salter, Jr. apply in the manner set forth in Paragraph 3 of the Office action mailed March 31, 2003 (Paper No. 3).

The claims now require the roll position indicator to be connected with the free end of a roll neck of a displaceable roll. Dahlstrom shows a rolling mill arrangement in which the axial position of working rolls is determined by sensing the actual position of the free end of the roll necks. See Figure 8.

It would have been obvious to one having ordinary skill in the art to position the axial position sensor 84 of Mercer to directly contact the free end of roll neck 26,

Art Unit: 3725

following the suggestion of Dahlstrom, in order to determine the exact position of the roll relative to the stand structure regardless of possible play in the roll bearings.

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Lowell A Larson whose telephone number is 703 308-1873. The examiner can normally be reached from 8:30 AM - 5:00 PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Alan Ostrager can be reached at 703 308-3136. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free)
